

## Dynamic Funds further expands its Active ETF line-up with launch of two new solutions

**Toronto, March 31, 2021** – Dynamic Funds announced today the launch of two new solutions in its Active ETF line-up – Dynamic Active International ETF (ticker: DXIF) and Dynamic Active Retirement Income+ ETF (ticker: DXR).

“We are excited to continue to innovate in the ETF space with two new differentiated and legitimately active ETFs for our clients – DXIF seeks to provide access to high-quality companies in international markets and DXR enables retirement income management within the liquid alternative structure,” says Mark Brisley, Managing Director, Dynamic Funds. “They provide investors not only with greater choice and flexibility when diversifying their portfolios, but the peace of mind that these solutions are managed by highly experienced portfolio managers and Dynamic’s considerable track record in these investment categories.”

### **Dynamic Active International ETF**

Dynamic Active International ETF seeks to provide long-term capital growth by investing primarily in a broadly diversified portfolio of equity securities of businesses located around the world, excluding the United States of America and Canada.

This ETF is managed by Vice-President & Senior Portfolio Manager David Fingold and Vice-President & Portfolio Manager Peter Rozenberg, who have more than 55 years of business, operational and investment experience combined and have managed a wide range of global equity and asset allocation mandates in the Dynamic Funds line up.

DXR will use alternative investment strategies, including the use of modest leverage, primarily created through the use of borrowing.

This ETF is managed by Senior Vice-President & Portfolio Manager Oscar Belaiche, who is backed by the 23-member Equity Income Team. Mr. Belaiche has more than 39 years of business, operational and investment experience and manages a diverse group of funds within the equity, balanced and alternative/specialty categories, which are primarily geared to generating equity income and growth.
