

CORRECTION: Dynamic Funds announces estimated year-end reinvested distributions for Dynamic Active ETFs and ETF Series

TORONTO, December 19, 2024 – Dynamic Funds today announced the estimated year-end reinvested distributions for the Dynamic Active ETFs and ETF series of units of applicable Dynamic Funds (“ETF Series”) listed on the TSX for the 2024 tax year. Please note that these are estimated amounts only and have been calculated based upon information as of December 13, 2024. The final distributions may change due to subscriptions or redemptions activity before the ex-dividend date or other factors.

These are estimated year-end distributions which will be reinvested in additional units of the respective Dynamic Active ETFs and ETF Series and do not include any cash distribution amounts for December. The additional units will be immediately consolidated so that the number of units outstanding following the distribution will equal the number of units outstanding before the distribution.

We expect to announce the final year-end reinvested distribution amounts on or about December 30, 2024. The record date for the 2024 year-end distributions will be December 30, 2024, payable on January 3, 2025.

The actual taxable amounts of reinvested distributions for 2024, including the tax characteristics of the distributions, will be reported to CDS Clearing and Depository Services Inc. in early 2025. Securityholders can contact their brokerage firm for this information.

The estimated reinvested distribution amounts per unit are:

Dynamic Active ETF and ETF Series	Ticker symbol (TSX)	Estimated reinvested distribution per unit (\$)	Currency

Forward-looking information

This notice contains forward-looking statements with respect to the year-end reinvested distributions for the Dynamic Active ETFs and ETF Series. By their nature, these forward-looking statements involve risks and uncertainties that could cause the final distributions to differ materially from the estimated distributions in this notice. Factors that could cause the actual distributions to differ include, but are not limited to, the actual amounts of distributions received by the Dynamic Active ETFs and Dynamic Funds; trading activity within the Dynamic Active ETFs and Dynamic Funds; and subscription and redemption activity.

For more information about the Dynamic Active ETFs and ETF Series, please visit [the Dynamic Funds website](#).

Commissions, trailing commissions, management fees and expenses may be associated with mutual fund investments, including ETFs. Please read the prospectus before investing. Mutual funds and ETFs are not guaranteed, their values change frequently, and past performance may not be repeated.
