

Dynamic Power Global Growth Fund

Interim Management Report of Fund Performance

For the period ended December 31, 2020

This interim management report of fund performance contains financial highlights but does not contain either the interim financial statements or annual financial statements of the investment fund. You can get a copy of the interim financial statements or annual financial statements at your request, and at no cost, by calling toll-free 1-800-268-8186, by writing to us at 1832 Asset Management L.P., Dynamic Funds Tower, 1 Adelaide Street East, 28th Floor, Toronto, ON, M5C 2V9 or by visiting our website at www.dynamic.ca or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

1832 Asset Management L.P. is the manager (the "Manager") of the fund. In this document, "we", "us", "our" and the "Manager" refer to 1832 Asset Management L.P. and the "Fund" refers to Dynamic Power Global Growth Fund.

The term "net asset value" or "net asset value per unit" in this document refers to the net asset value determined in accordance with Part 14 of National Instrument 81-106 – Investment Fund Continuous Disclosure ("National Instrument 81-106"); while the term "net assets" or "net assets per unit" refers to total equity or net assets attributable to unitholders of the Fund as determined in accordance with International Financial Reporting Standards ("IFRS").

Caution Regarding Forward-Looking Statements

Certain portions of this report, including, but not limited to, "Recent Developments", may contain forward-looking statements about the Fund and the underlying funds, as applicable, including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "projects" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future action by the Fund is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among

other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, current assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the Fund's simplified prospectus, under the heading "Risk Factors".

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next management report of fund performance, and that the forward-looking statements speak only to the date of this management report of fund performance.

Results of Operations

For the six month period ended at December 31, 2018 (the "period"), the Series O units of the Fund returned 30.1%. Fund returns are reported net of all expenses, unlike the returns of the Fund's benchmark, which is based on the performance of an index that does not pay fees or incur expenses.

The Fund's broad-based benchmark, the MSCI World Index (C\$), returned 15.2% during the same period. In accordance with National Instrument 81-106, we have included a comparison to this broad-based index to help you understand the Fund's performance relative to the general performance of the market.

The Fund outperformed its benchmark primarily as a result of stock selection and an overweight position in the Information Technology sector, along with stock selection in the Consumer Discretionary sector. From a geographic standpoint, holdings from the U.S. and Singapore were the biggest contributors to Fund performance.

Global equities ended the 6-month period in positive territory as the MSCI World Index (C\$) returned 15.2%. The second half of the year saw major equity markets surge to new market highs after a tumultuous first half as the COVID-19 pandemic created a nationwide lockdown earlier in the year.

Overall, major equity markets achieved new market highs by the end of the year. Thus, while the COVID-19 pandemic ended one of the longest bull markets on record, a new bull market began following the shortest bear market on record, which ended in late March.

During the period, restrictions began loosening over the summer and fuelled double-digit GDP growth for most countries. However, by late fall a second wave of the COVID-19 ensued and containment measures were reinstated and paused recovery in certain regions.

Rising infections in Europe saw many countries there tighten restrictions. European Union (EU) leaders proactively approved a €750 billion recovery fund to assist member states recover from the pandemic. Various European countries extended their furlough programs to support employment. The EU also agreed to a Brexit deal with the United Kingdom just days before the deadline. This calmed market fears of potential economic disruption.

The U.S. markets remained resilient despite seeing tighter restrictions in certain parts of the country and witnessing a contested U.S. presidential election. The U.S. Federal Reserve employing their 'whatever it takes' strategy announced its willingness to allow inflation to float above 2% before they raise interest rates. The future path of interest rates suggests that policymakers see rates at the zero lower bound through to and including 2023.

Japan saw a new Prime Minister (PM) emerge as Shinzo Abe resigned due to health issues. However, the change in PM to Yoshihide Suga had little impact on the markets. On the economic front, there were positive surprises that helped bolster impacted the markets, especially industrial production which had a larger rebound than expected.

China and some smaller Asian countries experienced healthy growth as they are farther along the road to recovery as they successfully used various methods in containing the spread of COVID-19. This resulted in the MSCI Emerging Markets Index (C\$) returning 23.0% for the period, outperforming most major indices.

The road to a full recovery is still very much impacted by the pandemic. However, there is a sense of optimism as we enter the new year. First, a COVID-19 vaccine has been formally approved in nearly all of the major countries and inoculations have begun. Second, proactive monetary policy measures will likely continue. Most central banks are expected to maintain low interest rates and are extending their Quantitative Easing programs well into 2021.

All 11 GICS sectors posted positive returns over the 6-month period. The best performing sectors were Consumer Discretionary (+26.6%), Materials (+21.6%) and Industrials (+21.0%). The worst performing sectors were Energy (+0.6%), Real Estate (+3.8%) and Health Care (+5.2%).

At the end of the period, the Fund was comprised of companies from the Information Technology, Consumer Discretionary, Health Care and Communication Services sectors. Information Technology continued to be the largest weighted sector at 58%. Information Technology was also the highest weighted sector of the MSCI World Index with a weighting of approximately 22% and was the third best performing sector for the index; thus, the Fund's overweight exposure to the sector was a positive for relative performance. Seven of the top ten stock contributors to Fund performance were from the Information Technology sector. Only three of the seven names were held by the benchmark. The Fund's collective Information Technology holdings outperformed those of the benchmark by more than 19%. Consumer Discretionary was the second highest weighted sector for the Fund and the fourth highest weighted sector for the benchmark. It was the second-best contributing sector to both the Fund and the benchmark. Led by the strong performances of Mercadolibre Inc. and Evolution Gaming Group., the Fund's Consumer Discretionary holdings outperformed those of the benchmark by more than 10%. The Fund held numerous stocks from the United States that contributed significantly to Fund performance both on an absolute and relative basis. As Sea Ltd. had such strong performance during the period, Singapore was one of the top country contributors behind the U.S., to both the absolute and relative performance of the Fund.

Notable change to the Fund's sector allocation during the past six months included an increase in the Information Technology sector and a decrease in the Health Care sector. From a geographic standpoint, notable changes included a decrease to the weighting of the U.S. and smaller increases primarily to several European countries. Sector and geographic weights in our portfolio are derived strictly from our bottom-up stock selection process.

The Fund's net asset value increased to \$544.0 million at December 31, 2020, from \$348.1 million at June 30, 2020. This change was composed of investment performance of \$115.2 million and net sales of \$80.7 million. The investment performance of the Fund includes income and expenses which vary year over year. The Fund's income and expenses changed compared to the previous year mainly as a result of fluctuations in average net assets, portfolio activity and changes in the Fund's income earning investments.

The Fund may make distributions at a rate determined by the Manager from time to time. If the aggregate amount of distributions exceeds the portion of net income and net realized capital gains, the excess will constitute a return of capital. The Manager does not believe that the return of capital distributions made by the Fund have a meaningful impact on the Fund's ability

to implement its investment strategy or to fulfill its investment objective.

Recent Developments

COVID-19

The spread of the COVID-19 virus began in late 2019 and led to a subsequent and dramatic global shutdown by March 2020 of all but the most essential activities. Many businesses and schools were closed along with borders as mobility restrictions were put in place around the world. This generated significant headwinds for corporate and consumer income which led to an increase in financial market volatility. In late March, markets began to see a dramatic reversal with investors encouraged by the amount of stimulus being introduced into the financial system by global policy makers. Trillions of dollars of supplementary income, tax relief, and lending backstops were put into place. The recovery continued throughout the course of 2020 with many markets seeing sharp recoveries, although not all sectors and industries participated in the recovery with sectors such as travel, energy and real estate continuing to lag. A globally coordinated approach to vaccine development continued throughout the second half of the year with Pfizer and Moderna both developing and starting to distribute a vaccine in record time. The rollout of the vaccine progressed around the world through the end of 2020 which continued to buoy markets. For now, we continue to monitor the situation and the effects on the Fund.

Related Party Transactions

The Manager is a wholly-owned subsidiary of The Bank of Nova Scotia (“Scotiabank”). Scotiabank also owns, directly or indirectly, 100% of Scotia Securities Inc., a mutual fund dealer, and Scotia Capital Inc. (which includes ScotiaMcLeod and Scotia iTRADE), an investment dealer.

The Manager, on behalf of the Fund, may enter into transactions or arrangements with other members of Scotiabank or certain other companies that are related or connected to the Manager (each a “related party”). All transactions between the Fund and the related parties are in the normal course of business and are carried out at arm’s length terms.

The purpose of this section is to provide a brief description of any transaction involving the Fund and a related party.

Operating Expenses

The Fund pays all of its own operating expenses, including expenses relating to the carrying on of its activities. The expenses charged to the Fund are disclosed in the Fund’s financial statements.

In addition, each series of the Fund is responsible for its proportionate share of certain operating expenses (“Other Fund Costs”). Further details about Other Fund Costs can be found in the Fund’s most recent simplified prospectus.

In addition, Dynamic Power Global Growth Fund paid the manager \$93,000 during the period ended June 30, 2020 (June 30, 2019 – \$32,000) for administration services performed by the Manager.

The Manager, at its sole discretion, may waive or absorb a portion of a series’ expenses. These waivers or absorptions may be terminated at any time without notice.

Other Fees

The Manager, or its affiliates, may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, foreign exchange or derivatives transactions. The Manager, or its affiliates, may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies.

Independent Review Committee

The Manager has established an independent review committee (the “IRC”) in accordance with National Instrument 81-107 – Independent Review Committee for Investment Funds (“NI 81-107”) with a mandate to review and provide recommendations or approval, as required, on conflict of interest matters referred to it by the Manager on behalf of the Fund. The IRC is responsible for overseeing the Manager’s decisions in situations where the Manager is faced with any present or perceived conflicts of interest, all in accordance with NI 81-107.

The IRC may also approve certain mergers between the Fund and other funds, and any change of the auditor of the Fund. Subject to any corporate and securities law requirements, no securityholder approval will be obtained in such circumstances, but you will be sent a written notice at least 60 days before the effective date of any such transaction or change of auditor. In certain circumstances, securityholder approval may be required to approve certain mergers.

The IRC has five members, Stephen J. Griggs (Chair), Steve Donald, Simon Hitzig, Heather A. T. Hunter and Jennifer L. Witterick, each of whom is independent of the Manager.

The IRC prepares and files a report to the securityholders each fiscal year that describes the IRC and its activities for securityholders as well as contains a complete list of the standing instructions. These standing instructions enable the Manager to act in a particular conflict of interest matter on a continuing basis provided the Manager complies with its policies and procedures established to address that conflict of interest matter and reports periodically to the IRC on the matter. This report to the securityholders is available on the Manager’s website or, at no cost, by contacting the Manager.

The compensation and other reasonable expenses of the IRC will be paid out of the assets of the Fund as well as out of the assets of the other investment funds for which the IRC may act as the independent review committee. The main components of compensation are an annual retainer and a fee for each committee meeting attended. The chair of the IRC is entitled to

an additional fee. Expenses of the IRC may include premiums for insurance coverage, travel expenses and reasonable out-of-pocket expenses.

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

- Paying brokerage commissions and spreads to a related party for effecting security transactions on an agency and principal basis on behalf of the Fund;
- Purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- Investments in the securities of issuers for which a related underwriter acted as an underwriter during the distribution of such securities and the 60-day period following the completion of such distribution;
- Executing foreign exchange transactions with a related party on behalf of the Fund;
- Purchases of securities of a related party;
- Entering into over-the-counter derivatives on behalf of the Fund with a related party;

- Outsourcing products and services to related parties which can be charged to the Fund;
- Acquisition of prohibited securities as defined by securities regulations;
- Trading in mortgages with a related party.

The Manager is required to advise the IRC of any breach of a condition of the standing instructions. The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager free from any influence by an entity related to the Manager and without taking into account any consideration to any associate or affiliate of the Manager; (b) represents the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Manager, in respect of the Fund, relied on IRC standing instructions regarding related party transactions during the period.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information on the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

(1) This information is derived from the Fund's interim and audited annual financial statements. The net assets per unit presented in the financial statements may differ from the net asset value per unit. An explanation of these differences can be found in note 2 of the Fund's financial statements. The net asset value per unit at the end of the period is disclosed in Ratios and Supplemental Data.

(2) Net assets per unit and distributions per unit are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding over the period.

(3) Distributions were paid in cash or reinvested in additional units of the Fund.

Ratios and Supplemental Data

As at	Total net asset value (in \$000s) ⁽¹⁾	Number of units outstanding ⁽¹⁾	Management expense ratio ("MER") (%) ⁽²⁾	MER before waivers or absorptions (%) ⁽²⁾	Trading expense ratio ("TER") (%) ⁽³⁾	Portfolio turnover rate (%) ⁽⁴⁾	Net asset value per unit (\$)
Series O							
Dec. 31, 2020	543,991	17,888,590	0.05*	0.05*	0.22*	73.85	30.41
June 30, 2020	348,116	13,052,198	0.08	0.08	0.25	181.49	26.67
June 30, 2019	228,185	12,200,552	0.07	0.07	0.46	273.09	18.70

* Annualized

(1) This information is provided as at the period end of the years shown.

(2) The management expense ratio is based on the total expenses (including sales tax, and excluding commissions and other portfolio transaction costs) of the Fund and a proportional share of underlying funds' expenses (mutual funds, ETFs and closed-end funds), where applicable, for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs, short borrowing costs and interest on leverage of the Fund and the underlying funds, where applicable, expressed as an annualized percentage of daily average net asset value of the Fund during the period.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fee

The Manager is not entitled to a management fee from the Fund in respect of Series O units. The management fee is negotiable and paid by unitholders directly to the Manager.

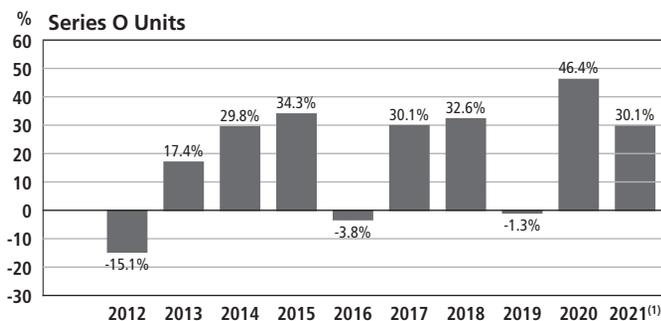

Past Performance

The following shows the past performance for the Fund and will not necessarily indicate how the Fund will perform in the future. The information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart shows the performance for the Fund and illustrates how performance has varied from year to year. The chart shows, in percentage terms, how much an investment held on the first day of each fiscal year would have increased or decreased by the last day of each fiscal year.

(for fiscal years ended June 30)

(1) Six month period ended December 31, 2020.

Summary of Investment Portfolio

The Summary of Investment Portfolio may change due to ongoing portfolio transactions. A quarterly portfolio update is available to the investor at no cost by calling 1-800-268-8186, or by visiting www.dynamic.ca, 60 days after quarter end, except for June 30, which is the fiscal year end, when they are available after 90 days.
